CORE SKILLS

Network Setup & Administration
Router Configuration
LAN/WAN Troubleshooting
MySQL & Database Management
SQL Query Writing & Debugging
PHP Development
HTML & CSS
WordPress & Website Content Management
PC Assembly & Maintenance
Computer Preventive Maintenance
OS Installation & Support
Microsoft Word, Excel & PowerPoint
Data Entry & Document Processing
PDF-to-Word Conversion
Technical Reporting & Report Writing
User & Helpdesk Support
Electoral Process Support

AI Prompting

LANGUAGES

English - Professional
Lusoga - Fluent
Luganda - Fluent

INTERESTS

Network Engineering
Technology Research
Continuous Learning
Community Engagement & Leadership
OS Installation & Support

CURRICULUM VITAE

TUSUBIRA CALEBU

Systems Administration | Networking | Database Support

PROFESSIONAL PROFILE

Results-driven Computer Science professional from Kampala International University with practical experience in systems administration, network configuration, database management and end-user technical support. Demonstrated ability to install, configure and maintain LAN/Wi-Fi environments, support operating-system deployments, troubleshoot hardware and software issues, and document technical incidents. Skilled in PHP, MySQL, HTML, CSS, SQL query writing and debugging, WordPress, database management, and website content management. Proficient in Microsoft Word, Excel and PowerPoint, as well as PDF-to-Word document conversion, data entry, report writing and AI prompting. Experienced in computer preventive maintenance, technical documentation and user support. Brings a structured problem-solving approach, a service mindset, strong attention to detail and a commitment to delivering reliable and practical technology solutions.

PROFESSIONAL COMPETENCIES

- Systems Administration: installation, configuration, routine maintenance and technical support.
- Networking: LAN/WAN setup, router configuration, connectivity troubleshooting and Wi-Fi support.
- Database Support: MySQL database architecture, organization and basic administration.
- Hardware & Operating Systems: PC assembly, diagnostics, component maintenance and OS installation.
- Technical Support: incident response, user assistance, helpdesk support and issue documentation.
- Electoral Administration Support: polling operations awareness, electoral-process oversight and integrity-focused administration.

WORK EXPERIENCE

ASSISTANT IT & SYSTEMS ADMINISTRATOR

Razortech Company Limited, Kabalagala 2024 - 2026

Supported the installation, configuration and maintenance of LAN and Wi-Fi networks to keep users connected and operational.

Designed and maintained backend database structures using MySQL and SQL, supporting organized and reliable data handling.

Wrote, tested and debugged SQL queries for database operations, data retrieval and troubleshooting.

Microsoft Word, Excel & PowerPoint
Data Entry & Document Processing
PDF-to-Word Conversion

Assembled, configured and troubleshot computer hardware, software and operating-system installations.

Performed computer preventive maintenance to improve equipment reliability and reduce technical failures.

Diagnosed technical faults and provided direct end-user and helpdesk support for day-to-day ICT issues.

Supported website content management and basic web development using PHP, HTML, CSS and WordPress.

Prepared technical incident reports, documentation and other reports to support follow-up and service continuity.

Guided, trained and supported interns in networking, computer maintenance, database management and general ICT support, providing practical assistance and supervision during their assignments.

EDUCATION

QUALIFICATION / INSTITUTION	YEAR
Bachelor of Computer Science Kampala International University	2023 - 2025
Uganda Advanced Certificate of Education Lugazi Homeland College	2019 - 2022
Uganda Certificate of Education Mt St John's College	2014 - 2018

TECHNICAL CAPABILITIES

Networking & Administration	Network setup, router configuration, LAN/WAN connectivity, Wi-Fi support, maintenance and troubleshooting.
Database Management	MySQL database support, database architecture concepts, organization and routine maintenance.
Hardware & Systems	PC assembly, hardware diagnostics, preventive maintenance, operating system installation and configuration.
Support & Documentation	User support, helpdesk assistance, fault diagnosis, incident reporting and technical documentation.
Operational Support	Ability to work within structured procedures, support teams, document issues clearly and follow through on technical tasks.

PROFESSIONAL STRENGTHS

Analytical problem-solving and structured troubleshooting

Clear communication with technical and non-technical users

Attention to system reliability, documentation and follow-up

Ability to learn new tools, systems and procedures quickly

Team collaboration, accountability and user-service orientation

CAREER FOCUS

Seeking opportunities in IT support, systems administration, network support, database support or related ICT operations where practical troubleshooting skills, technical discipline and continuous learning can contribute to dependable technology services.
